DETAILED ACTION

Claim Rejections - 35 USC § 103

3. Claims 1-8 and 39-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim-E, US 7,165,045.

Kim-E discloses a network based trading system and method where a product and service, e.g. mutual funds have both attributes, are offered within a defined range and value and the seller, e.g. 844, is notified of the particular product or service when the buying criteria, e.g. 174, does not match the seller criteria and outputting a list of deals in real-time from amongst the plurality of deals. Kim-E does not explicitly disclose distribution criteria. Official Notice is taken that distribution criteria has been common knowledge in the electronic marketing art. To have provided such for Kim-E would have been obvious to one of ordinary skill in the art in view of Official Notice.
